What is an Appleseed?

You can't write the story of America without including several chapters about the skill and bravery of our forefathers. On April 19, 1775, at Lexington and Concord, American colonists stood with muskets in hand and faced down the British forces that were trying to seize their arms. The colonists did it with grit, determination, and superior marksmanship. They were real marksmen, nobly and ably putting their skills on the line in pursuit of liberty.

We are the descendants of those fearless men and women who earned our freedom on the battlefield. We honor their pursuit of liberty by passing along the skills and knowledge that aided them in securing it. Today's Rifleman understands that owning and mastering a rifle is part of his/her American heritage. Whether you're a new shooter or a seasoned marksman, Project Appleseed can help transform you from a person with a rifle into a principled and skilled Rifleman.
