## OFFICIAL MATCH REPORT

## HIGH POWER RIFLE 80 SHOT REGIONAL MATCH FORMAT

MATCH DATE 15 APRIL 2017

MATCH DIRECTOR JOSEPH C. MEYNIER III

Nineteen competitors enjoyed both a fine day to compete and the new surface at the 600 yard firing line. There were light and glare challenges to manage as the weather changed from partly cloudy to overcast and rainy and then to sunny. The rain was short-lived and we all continued through it as if it were nothing. It will be noted that Dwayne Vidrine and Gary Schwabe both shot "cleans" during a prone rapid-fire-in-the-rain string of fire. Except for when your Bob Jones rear sight fills up with water, scores almost always go up in a rain. By the time that we finished up at 600 everyone was dry. As regards the 600 yard firing line I submit that there is not a firing line like it any place else. Gone are the days of dustbowl conditions and grass dying a slow death. It is truly first rate and renders Palo Alto a premier high power facility. Spread the word far and wide. I want to personally thank the board for making this substantial investment in our sport. My thanks also go out to all the competitors who showed up, two from as far away as Jackson, Mississippi.

This was Sergeant First Class Joe Ouellette's final match with us as he is changing station from Fort Polk to Fort Carson, Colorado. You might know Joe as the friendly big guy who always runs an M14/M1A. It has been a pleasure having you compete with us, Joe. Good luck at your new duty station and from me personally I wish you fair winds and following seas.

Looking to the future, the next high power XTC match at Palo Alto will be held on 20 May. Registration opens at 0700 and closes at 0800. Come check out the new 600 yard firing line and bring a new shooter with you. If you need support for a junior shooter please let me know. I look forward to seeing you on the 20<sup>th</sup> of May!

Class	Competitor	Standing SF	Sitting RF	Prone RF	Prone SF	Aggregate
